

# Big show of figure skaters in Luzhniki

(Continued from page t)

a light oliment. They were creditatily reptaced by Larian Seleznyova and Olog Makorov, atso from Leningraft, who took the lead after the first doy.

Among the women the leaders are Kiro Ivanove, Notalya Lubodevu and Anna Kondrashove ot the USSR after the compulsory event. Taktirg part ora 19 skoters trom It nations.

Soviet sporiemen continently lead in all the evenis, and, frankty speaking, there is nothing surprising in it. In recent years the mastery of Soviel skalero hos markedly improved not just in the events where they are traditionally atrong but to the men'a and, the main living. in the women's eligies. And we are deeply convinced that avent the tournament was attended by more experienced skaters from abroad they would have hardly managed to beat our ska-iers. Maybe this sounds, somewhat presumptions bul for the present day it is a fact. Evidence of the may be the most complex new programmes shown in all the events and acute competition, since opart from ell other things, this tournement is, tor Sovier participants, one of the auth climination stages tor the Euro-pean and world champtonships.

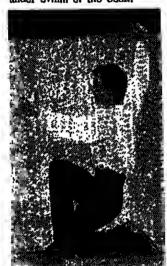

So, in the next issue, we will sum up this most interesting fivoday compettion.

Sopbie Merigot-Philippe Berthe of France.

Andree Savorgeseo of Italy,

#### AFRICAN TRAGEDY

The dependence on larmor metropolics and the plandoleus policy of transmitional corporations towards developing notions is a major reason for the low efficiency of Airican ogitculture which has oggravited the tood problem on the continent, cantends PRAVDA's Algerian correspondent Sergel Pilatov. He paints out that Atrica inherited from colonialism a predominantly monocultural agricultura. Under TNC's pressure its economy is still largely oriented on the world capitalist market and sulfers most serious blows during its crists periods. The neocolonial policy of imperiolies authors towards most Airican nations narrows the lotter's opportunity for strengthening their own industry and ogriculture. For transnationals the Airteun atores hove been and are the suppliers of

for many Attican nations their present trayedy is another proof of the critical importance for them of reut economic independence. Only that could moke it possible to successfully ballic the eliccia of natural calumines, hunger, as well as to achieve on upsurge in agriculture and the economy as a whole, the paper points out.

#### TEL AVIV'S STRATAGEM IN LEBANON

About Tet Aviv's monocuvings at the Lebunese-tsmall title, writes (ZVESTIA's political observer, Konstantin Gelvandov. He points, umang other things, to the following stro-ingem by the largest tenders:

They declared that they had established a three-month term for the achievement of results in the acquisitions with Lebonon, and in case of the tollars of these acquisitions they will start to act of their own discretion. The essence of the ultimotum is simple, all the more so that the israeli side tokes on obstructionistic position and puts toward conditions deliberoisty unocceptable for the lebanese. It is obvious that the allosts made by Tol Aviv are aimed at being oble to occuse the Lebanese side, in three months' time, or even confer, of deadlocking the negativitions so as to carry out o plan, long before conceived by the israelis, of unitate of measures to secure Isinci's northern boiders with a portfol redeployment of the forces of invosion. This in turn must lend to the some result - conversion at southern Labonan Into on leadelt

#### WHAT HAVE PERSHINGS BROUGHT TO EUROPE?

Willing in SOVIETSKAYA ROSSIYA Anutoly Krostkov success that NATO prepugundists try to convince their peoples that they would be more seeme once Pershing-2 and ruise missies were in place, but this is for from the truth.
Not only have the hundred-plus American missies positioned this post year in Europe foiled the Geneva tolks, they necessitated military countermeasures by the USSR and its alhes, for they tust could not let the bulonce of power in Europe be upset. The pully, too, was restored — at a higher

Not only the USA is to blame. The blame is shared by those tyest Europeon politicions who have placed their countries of the disposal of the USA. Yielding to Washington's pressure ond plocing the notorious "Western solidarity" ohead of their own notional interests, they turned West European peoples into the hostages of US nuclear strategy, the author concludes.

#### THE GREEN LIGHT TO THE MANUFACTURERS OF DEATH

KRASNAYA ZVEZDA Writes that this year the Council o the West European Union has litted from the Pederal Republic of Germany the last bons on the manufecture of strategic bombers and long-tongs missiles, and in this way gave o green light for the creators of ottensive weapons in West Germany.

Having received this support from the portners in the North Atlantic Alliunce, the military and political leadership of the Attentic Alliunce, the militory and political leadership of this FRG, judging by everything, intends to strengthen the course towards further build-ups in militory and industrial potential for the purpose of implementation of technical re-equipment of the Bundeswehr so as to raise its combat capabilities and to strengthen the country's influence within NATO. The following locis lessify to this. The FRG Detence Minister Manifed in country by proceeding a new plan for the deing locts tastily to this. The FRG Delence Minister Manised Worner, for example, have presented a new plan for the development of the Bundeswehr for the next thieren years under the title, "Bundeswehr 1985". Its main direction is build-ups in orms in keeping with the plan until the end of the century nearly 300 thousand million DM will be spent on purchases of weapons for the Bundeswehr.

The implementation of this programme will mean a sharp swing of the antite economic structure of the country towords milliarization, a swing which has been unprecedented in the epite history of the Federal Republic.

the entire history of the Federal Republic.

# BILLIONS FOR VIOLENCE ESCALATION

cifying its 1985 "loreign military to give and to whom, and, most important, for what purpose. In other words, the issue hangs on the pelitical and other non-material dividands the USA will accrue from these funds.

While another batch of arms was recently on its way to Ps.
kisten a Pentagon spokesmen
claimed it would help achieve
the geals of US foreign policy. On the military plane, the most

crucial of these goels is the establishmeat of Amarican military beachhaads around the globo lo rise the latter for the exertion of pressure on the peoples
tion of pressure on the peoples
in the respective regions
and for interfering in thoir internal affairs. Pakistan is olso sean as one of such beachheads In the indian Ocean and Southem Asia. But what is the by-product, so to say, of those el-toris made by Washingtoni Ever since the live-yeer US military eld programma to Pa-

kislen was faunched tensions have mounted throughout indosian. Indeed, no other outcome of those efforts could have be se

long-ranga cannons supplied to Pakistan by the USA, are any suffering as a result of the above-mentioned alforts.

The ascaletion of bloodshed is intestilled, loo, by the 280 million dollars the USA has armarked for Alghan counter-ravolutionary groupings in 1985. According to Washington, those funds would halp buy the latest tools of lerror. Evidantly, some of this money will be sai aside as "remunesed" for the most as "remunesation" for the most dedicated bandits who receive spacial bonusas for every murdered supporter of the revelu-tion, be if a government official, doctor, leacher, schoolboy or

clargymen. Weshington expects similar "dividends". In human suffering

anticipated, as Pakisisn's armament programme is out of proportion with its roal delence needs, it is spacially locused on offansiva weapons, posing a real threat to the security of neighbouring sations.

Residents of india's notike wastern states now being infilitrated from abroad by armad separalisis as wall as Alghan villegars constantly sholled by long-range cannons supplied to

effective mass slaughter moans needed by the rulers in El Salvador to suppress their owa poople. Honduras has been promised 62,5 million dollars as remune-

ration for becoming, in the first place, a US Army beachhead in Central America, and according the strongpoint base of counter-revolutionary gangs making ferroristic incursions into Nicaragua. But the general "loreign making and the general "loreign maki olley goal" of US military ald is suppression of the national liberation struggla in Central America with the hands of its recipients, until Washington deems it hacessary to resort to its own open intermediate. its own open intervention as it did in Grenade and is planning

Like before, nearly e quarter

to do in Nicaregua.

the meantime consoling Tell Aviv by advising it to use the 1,200 million dollars "economic atd" to boost its military potential. That is precisely what "The Washington Post" wrote in its November 22, 1984 issue. The range of "mutuol services" sought efter by Washington for its military etd is rather broad. These include bases for the US Nevy end Air Force on the territories of recipiant parties. the territories of recipiani nathe "rapid deployment lorce" and its erms dapots, participa-tion in verious US "show, et

strength", covert and overt activities of Washington egains un friendly countries end regimes But the overriding considera-tion is edvantage for the USA itself — only that and at any cost, even if that leads to more

lonsions and lass stability in many paris of the globs, even if elementery rules of international law and Washington-advertised "American morel vetues" are trampled upon.
Washington's current bargaining out of military aid to its individual clients convincingly confirms this; it would result in

nothing else but more violence eround the globe end more

blood and lears for its victims.

#### PLANS FOR 1985

Negotialions hald in Moscow between commercial delegations of the Soviel Usion and the Czechoslovak Republic ended auccessibility with the signing of o 1985 trade turnover protocol between the two couolries.

The planned Irade lurnover to exceed 13,000 million roubles ond increase by more than six per cent as compared with that of the current year.

Czechoslovakie still holds a feading piece in Soviet foreign trade while the USSR remaios the main trading partner of

Among other things, it is envisaged to further develop specialization and cooperation is production, with emphasis oa engineering. Io this respect the volumes of mutual deliveries of machines and equipment in 1985 will increase coosiderably.

#### Italian plumbing fixtures on display

The Italian firm, Nordadriatic has beld an exhibition in Moscow in display its equipment, plumbing fixtures and accessories indispensable for bathrooms and in the and lavatories used in flate and

This has been our first attempt to establish immediate liaks with Soviet organizations, an MNI correspondent has been told by the firm's director Saverino Cor-

detake engineering, markeling and financing involved in any project to organize the manufacture of lavalory and tathroom notice to develory and bathroom equipment or ceramic tiles. The firm is leady for broadest cooperation possible with Soviet organizations. It can oot only deliver leads made goods, but also conclude agreements on clearing and joint production of items needed for bathrooms and layslories as well as lies. In order to allow Soviet specialists to learn as much as possible about the production and export possibilities of the firm which includes thirty industrial entercludes thirly industrial enter-prises, we are planning to regul-arly take part to toternational and specialized exhibitions in the USSR and also to organize sym-posts and saminats of our own, said S. Cords in conclusion.

# Clubs for raising exports

A short while ago its opera-tions have been started by ano-ther club for economic coope-ration with the Soviet Usion in Polacd. It has been set up in the city of Wroclew at the initiative of the Wroclew province board of the Society for Polish-Soviet Friendship and the Polish Foreign Trado Chamber.

The Wroclaw Club is the twenty-third society of its stind in Poleod. Such clubs are visited by representatives of more than six intended Polish enterprises and organizations exporting their goods to the Soviet Union, products whose share exceed 60 per cent of all the trade turnover of Poland with this country. The main sim of the clubs is to find reserves and The Wrociaw Club is the the clubs is to find reserves and possibilities for increasing ex-

a contest for the best exporter of products intended for the Soviet Union. The first place to 1983 was awarded prise of chemical automation, Metalichem in Cityles producing controlling and measuring devices. Last year, Metalichen has sent for exports 60 per tent of its goods. Their major receiver in the Soviet Union.

ver is the Soviet Union.

The raising of the quality of the exported goods is etto within the field of vision of the clubs. Dedicated to this, has been for interacted a sominar on the quality of knit-west goods exported to the Soviet Union. It has been noted that the export of Polish knit-west to this country has considerably. Increased over the last years. The quality of the goods to the main is high, but there are quality complaints, and it means that the work should be improved.

#### TOWARDS STRONGER FRIENDSHIP

The Copyright Agency of the USSR (VAAP) and the Spanish Publishers, Real Musical, have sigaed s general copyright

Wa wish to meel the bigb in-terest of our peopla in Soviet culture as fully as we can, said the publishers' director-general, Ramoa Jimenaz. Thie epecilically concerns music. Now we are preparing the publication of plano music by Dmitry Shastakovich and Dmitry Kabalevsky, memoirs by Soviet professor and planist H. Neubaus.
